

SEABOARD "VUELTA FERMOSEA"

This is the favorite spot for visitors, stretching 7 km with modern facilities facing the Paraguay River. It's a place to connect with nature in a clean, well-maintained, and soothing environment where you can recharge your energy and enjoy some of the most breathtaking sunsets in the city. At the end of the promenade, there's a large roundabout that hosts the "Plaza de las Banderas," featuring a dancing water fountain and two flagpoles displaying the national and provincial flags.

GENERAL SAN MARTÍN SQUARE

This is the main square of the city, famous for its impressive size of 4 hectares. It features plenty of recreational spaces, like playgrounds for kids, a carousel, a skate park, and an artificial lake surrounded by lush greenery. There's also a fountain shaped like a water lily. It's a popular spot for exercising, and on weekends, there are often recreational activities.

HISTORICAL MUSEUM "JUAN PABLO DUFFARD"

Built in 1888, this was the residence of the first governor of the province, General Ignacio Fotheringham. It houses items that showcase much of Formosa's history from its founding, its political and social evolution, as well as indigenous cultures, expeditions, and military events.
